DETAILED ACTION

Claims

Claims 15, 22, and 23 are amended. Claims 24-35 are canceled by Applicant.

Allowable Subject Matter

Claims 15-23 are allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 15, relevant prior art of record did not disclose, alone or in combination, a method of fabricating a liquid crystal cell as claimed comprising the steps of: *obtaining a liquid crystal cell having liquid crystal filled between two substrates stuck together by a sealant which is formed to provide a first opening and a second opening; discharging bubbles mixed in the liquid crystal from the inside of the liquid crystal cell through the first opening by pressing the two substrates of the liquid crystal cell in a direction where the two substrates approach to each other; and replenishing the liquid crystal cell through the second opening by use of a capillary phenomenon.*

The closest reference is Kawasumi et al (Kawasumi) USPAT 5,978,065 who discloses the method with a first opening, 8 [Figures 7A-7C].

FIG. 7A

FIG. 7B

FIG. 7C

However, no reference was found, with motivation to combine, to add the step of replenishing the liquid crystal cell through a second opening by use of a capillary phenomenon.

As to claims 16-23, they properly depend from claim 15 with allowable subject matter above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
